Question: What should a company or organization look for in a staffing service provider?

Answer: Flexibility, and the aptitude to think outside of the box. The staffing service should have the talent to customize their services to fit the needs of the client, not the other way around. Demands and pressures of the workplace are constantly changing. Recruitment is not the same as it was five years ago, it requires, creativity, a sense of urgency, and a complete understanding of the needs of the client. It is necessary for a staffing service to remain on the cutting edge, with imagination and resourcefulness.
